

U.S. Labor Market Demonstrates Signs of Slowing in Third Quarter 2019

October 23, 2019

While Job Switchers Benefit Amid Tight Labor Market, Wage Growth for Switchers Began to Stabilize

ROSELAND, N.J., Oct. 23, 2019 /PRNewswire/ -- Wages for U.S. workers grew 3.2 percent over the last year, increasing the average wage level by \$0.90 to \$28.71 an hour, according to the ADP Research Institute's [Workforce Vitality Report](#) (WVR) released today. The wage growth of 3.2 percent corresponds to the BLS numbers of 2.9 percent which was released earlier this month, October 2019.

"The labor market has shown signs of a slowdown. After accelerating at the start of 2019, annual employment growth has leveled off to a modest 1.7 percent in September," said Ahu Yildirmaz, co-head of the ADP Research Institute. "While job switchers continue to enjoy wage growth of 5.1 percent, employers appear to have reached the limit of what they are willing to pay workers to entice them to switch jobs."

Job switchers receive an average wage increase of 5.1 percent when they moved to a new employer. Wage growth for job switchers varies significantly across industries (ranging between -3 percent to 10 percent). Construction, Finance, Information, some parts of the Professional Services industry are still outperforming the overall average.

About the ADP Workforce Vitality Report

The *ADP Workforce Vitality Report (WVR)* was developed by the ADP Research Institute. It is an unprecedented, in-depth monthly analysis (published quarterly) of the vitality of the U.S. labor market based on actual data that identifies labor market trends and dynamics across multiple dimensions. These dimensions include employment growth, job switching, wage growth and hours worked. In addition to the macro data presented in the report, there are also segment-specific findings by industry, state, gender, age, experience, and pay level. Established in October 2014, the report methodology was updated in April 2018 utilizing monthly data to include additional data points and deeper insights. For more information about the report, please visit <http://workforcereport.adp.com/>.

Type of Workforce

Holders: Workers who were employed by the same company for the past 12 months. The wage growth is the rate of change in wages in that time period.

Switchers: Workers who changed employers between consecutive months. The wage growth is calculated from the 12 month moving average of wage growth.

Entrants: First time workers who are less than 25 years-old. The wage growth is calculated from the 12 month moving average of wages.
