ADP Small Business Report: Small Business Employment Increased by 94,000 Jobs in April

ROSELAND, N.J. - May 6, 2015 - Private sector small business employment increased by 94,000 jobs from March to April according to the April *ADP Small Business Report*®. Due to the important contribution that small businesses make to economic growth, employment data that are specific to businesses with 49 or fewer employees is reported each month and broadly distributed to the public, free of charge. The *ADP Small Business Report* is produced by ADP®, a leading global provider of Human Capital Management (HCM) solutions, in collaboration with Moody's Analytics.

* Sum of components may not equal total, due to rounding.

Additional information about small business employment, including charts on monthly job growth and employment levels along with historical data, is available at www.adpemploymentreport.com

The May 2015 *ADP Small Business Report* will be released at 8:15 a.m. ET on June 3, 2015.

About the *ADP Small Business Report*®

The *ADP Small Business Report*® is a monthly estimate of private nonfarm employment among companies in the U.S. with 1-49 employees and is a subset of the *ADP National Employment Report*. The data for this report is collected for pay periods that can be interpolated to include the week of the 12th of each month, and processed with statistical methodologies similar to those used by the U.S. Bureau of Labor Statistics to compute employment from its monthly survey of establishments. Due to this processing, this subset is modified to make it indicative of national employment levels; therefore, the resulting employment changes computed for the *ADP National Employment Report* are not representative of changes in ADP's total base of U.S. business clients.

About Moody's Analytics

Moody's Analytics helps capital markets and risk management professionals worldwide respond to an evolving marketplace with confidence. The company offers unique tools and best practices for measuring and managing risk through expertise and experience in credit analysis, economic research and financial risk management.
