* Sum of components may not equal total, due to rounding.

Additional information about small business employment, including charts on monthly job growth and employment levels along with historical data, is available at www.adpemploymentreport.com

The November 2015 *ADP Small Business Report* will be released at 8:15 a.m. ET on December 2, 2015.

About the *ADP Small Business Report*[®]

The *ADP Small Business Report*[®] is a monthly estimate of private nonfarm employment among companies in the U.S. with 1-49 employees and is a subset of the *ADP National Employment Report*[®]. The data for this report is collected for pay periods that can be interpolated to include the week of the 12th of each month, and processed with statistical methodologies similar to those used by the U.S. Bureau of Labor Statistics to compute employment from its monthly survey of establishments. Due to this processing, this subset is modified to make it indicative of national employment levels; therefore, the resulting employment changes computed for the *ADP National Employment Report* are not representative of changes in ADP's total base of U.S. business clients.

About Moody's Analytics

Moody's Analytics helps capital markets and risk management professionals worldwide respond to an evolving marketplace with confidence.
