

Everest Group Names ADP a Leader in Recruitment Process Outsourcing (RPO)

ADP recognized in the Everest Group RPO in North America PEAK Matrix for customizable services, advanced technology and impactful analytics

ROSELAND, N.J., Aug. 13, 2020 /PRNewswire/ -- Industry analyst firm Everest Group has positioned ADP as a Leader in its Recruitment Process Outsourcing (RPO) in North America PEAK Matrix® 2020 Assessment. Recognizing ADP's strong North American delivery footprint and overall market and client impact, this designation underscores ADP's commitment to driving innovation in human capital management (HCM).

Everest Group uses its objective, data-driven PEAK Matrix framework to assess the market success and overall delivery capability of RPO service providers, classifying them into three categories: Leaders, Major Contenders and Aspirants. The outcome is determined based on two main criteria: Market Impact, which includes market adoption, portfolio mix and value delivered; and Vision and Capability, which considers vision and strategy, scope of services offered, innovation and investments, and delivery footprint.

"ADP RPO is one of the biggest and strongest players in the North American RPO market," notes Arkadev Basak, vice president, Everest Group. "Its expertise in catering to buyers of all sizes across industries and its continued investments in technology and analytics – including its proprietary compensation explorer tool – have helped position it as a Leader on Everest Group's RPO in North America PEAK Matrix® Assessment 2020."

"We are honored to once again be recognized as a Leader in RPO by Everest Group," said Tina Tromiczak, senior vice president at ADP. "We are committed to providing our clients with the services and support they need to navigate the changing labor market and find and retain the right talent. From specialized recruitment offerings and consulting services, to AI-powered chatbots and predictive analytics capabilities to aid in candidate search, we combine the power of technology and data with deep expertise to deliver an impactful client experience."
