

Everest Group Names ADP a Leader in RPO Peak Matrix 2021 Assessment

ROSELAND, N.J., Sept. 15, 2021 /PRNewswire/ -- Industry analyst firm Everest Group has again positioned ADP as a Leader in its Recruitment Process Outsourcing (RPO) in North America PEAK Matrix® 2021 Assessment. This recognition acknowledges ADP's commitment to delivering robust technology paired with deep expertise to help clients across many sizes and industries navigate the evolving world of work, from returning to the office to attracting top talent.

Everest Group uses its objective, data-driven PEAK Matrix framework to assess the market and overall delivery capability of RPO providers, classifying them into three categories: Leaders, Major Contenders and Aspirants. The assessment has two main criteria that determine the outcome – Market Impact, which includes market adoption, portfolio mix and value delivered; and Vision and Capability, which covers vision and strategy, scope of services offered, innovation and investments, and delivery footprint.

"ADP RPO has the expertise to cater to buyers of all sizes across multiple industries in North America. Its continued investments in 2020 have helped it to create a robust technology stack and expand its advisory and market intelligence offerings," said Arkadev Basak, Vice President, Everest Group.
