

ADP National Employment Report: Private Sector Employment Increased by 208,000 Jobs in September; Annual Pay was Up 7.8%

ROSELAND, N.J., Oct. 5, 2022 /[PRNewswire](#)/ -- Private sector employment increased by 208,000 jobs in September and annual pay was up 7.8% year-over-year, according to the September [ADP® National Employment Report™](#) produced by the ADP Research Institute® in collaboration with the Stanford Digital Economy Lab ("Stanford Lab").

The jobs report and pay insights use ADP's fine-grained anonymized and aggregated payroll data of over 25 million U.S. employees to provide a representative picture of the labor market. The report details the current month's total private employment change, and weekly job data from the previous month. ADP's pay measure uniquely captures the earnings of a cohort of almost 10 million employees over a 12-month period.

"We are continuing to see steady job gains," said Nela Richardson, chief economist, ADP. "While job stayers saw a pay increase, annual pay growth for job changers in September is down from August."
